This makes the book more useful than those that just stick to the concepts . . . If statistics can ever be made fun, then this book shows how." Through comical tales of dragon racing, worm collecting and soda guzzling, Klein and Dabney illustrate how statisticians gather data and make predictions . . . Entertaining yet thorough." Scientific American "[A] delightful introduction to statistics . . . The genius of the book is in its layout . . . The book's good humor, clear prose, and intelligent layout should give it a probability of success with its readers approaching 100%." Publishers Weekly "A gentle, pleasantly illustrated induction into the strange world of bell curves and chi squares . . . A smart, enjoyable overview of this most useful branch of mathematics."
