Brand New Book ***** Print on Demand *****.Excerpt from Pattern-Making Machinery: Manufactured by Richards, London Kelley, Atlantic Works, Philadelphia The success that has attended our efforts to introduce a special class of machines for railway car making, together with the progress made in wood manufacture by special machines adaption that a class of machine can give the best and most profitable result. With this view, it is proposed to introduce mew set of machinery for pattern-making, arranged mainly upon new and original designs, adapted especially to the peculiar requirements of pattern shops. Hitherto, pattern shops have, as a rule, been supplied with machines intended for, and adapted to joiner work; in some cases too heavy, in others too light, and in nearly all cases, wanting adaptation to the nature of the work. The Atlantic Works was founded in 1869 for the manufacture of machines especially directed to railway car manufacturing, and Band Sawing Machinery. There had been to this time but one class of wood-cutting machines, arranged especially for cabinet work and joinery, yet applied to all purposes, including heavy work, while in England and elsewhere, wood-working machines were, in most cases, adapted to the special requirements of the work to which they were to be applied; machines for working framing being much stronger, and differently constructed from those intended for the lighter kinds of work. Designs were prepared without any reference to the precedents furnished by other builders. The proportions and fitting were based upon the functions of the machines alone; the framing, gearing, shafts, bolts, belts and other details were adapted to the strains, and the conditions of their operation, so far as a long experience could determine. All ingenious complications were...
