paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Publisher: Chemical Industry Pub. Date :2011-8-1. Books. including rare earth permanent magnet - rare earth cobalt-based. iron-based super magnets. two-phase nanocomposite permanent magnetic materials. rare-earth iron compounds magnetic gap materials. manufacturing processes. equipment. manufacturing principles. application and development of China rare earth permanent magnet materials and industrial innovation; permanent magnet materials. magnetic base; rare earth permanent magnet materials. phase transition and crystal structure of rare earth intermetallic compounds; today's domestic and foreign advanced manufacturing processes and equipment. manufacturing principles; first-generation rare earth permanent magnet materials - rare-earth cobalt permanent magnet material. the second generation of 2:17 type rare-earth cobalt permanent magnet material. the third generation of rare earth permanent magnet materials - rare-earth iron based permanent magnet materials. nanocomposite permanent magnetic materials. rare earth permanent magnet materials. the transition gap compounds. composition. properties. production methods and their mutual relations. the application of permanent magnet materials. magnetic circuit design based on the stability of permanent magnet materials. Magnetic measurements and magnet applications are typical examples and prospects. This book will ferromagnetic science. crystallography. metallurgy. metallurgy. materials science applied to the basic theory of mastery of rare earth permanent magnet materials. the related basic concepts. basic principles of making a clear exposition. China rare earth permanent magnet material for the book industry forward in the development of high-performance production problems described. that China rare earth permanent magnet materials industry research objectives and methods to achieve the target ten kinds of innovative technologies and strategies. the emergence of magnetic materials at home and abroad new theories. new theories. new materials. new technologies elaborated. Book is suitable for permanent magnet material production. development and application of technical and technological fields related to scientific...
